

## PRODUCT OVERVIEW

### WATER-BASED PAINTS

Environmentally friendly products with a low content of organic solvents:

- 1-component-resin coatings
- 2-component PU-systems with excellent outdoor resistance
- 2-component EP-primers
- High-quality 1-component single-coat corrosion protection
- Peel-off coatings for spray booth maintenance
- Non-toxic special products for wood and wooden toys
- Baking enamels (practically solvent-free)

**Inform us about your specific application and we will offer you a suitable environmentally friendly coating system.**

### WOOD

Conventional or water-dilutable:

- Toys (according to EN71, ASTM / CPSIA)
- Stems, handles, wood for brushes
- Clear lacquers
- ThermalTransferPrinting (TTP)
- Effect lacquers
- Colour and pigment concentrates
- Tumbling lacquers for mass production
- Dipping paint

### METAL

solvent based or water dilutable:

- Vehicles attachments
- Machines, housings, systems
- Corrosion protection
- Effect lacquers
- Structure paints
- Chemical-resistant coatings
- Heat-resistant coatings
- Non-stick and anti-friction coatings

### PLASTICS

- Effect lacquers
- Metallisation
- Lacquers, also for toys
- EN71, ASTM/CPSIA

### MAINTENANCE

We show you how you can reduce costs by efficient maintenance:

- Spray booth maintenance
- Machines
- Stoves
- Factories, parking areas
- Chemically polluted
- Special Peel-off Coatings
- Peel-off Coatings, dust binding lacquers
- Structure paints
- Heat-resistant coatings
- Marking paints
- chemical resistant coatings floor (grey)
- Lamps, windows, Acryl (clear)

### SPECIAL PRODUCTS

Water dilutable or solvent based:

- Non-stick coatings for technical applications (PTFE)
- Heat-resistant, depending on colour tone, 250 °C to 600 °C
- Anti-Scaling Lacquer
- Impregnation for glass-sheathed cables
- Special primer for galvanising (1- and 2-component)
- Zinc-Repair-Paint
- 1-component special primer for critical surfaces

**1-component corrosion single-layer coating**  
**1.000 h salt spray test at 70 µm, tried and tested**

**Quality means that the customer returns – and not the product!**
